Dolly!

A Stunning Tribute to One of Country Music's Greatest Stars

Natasha Neely has been a life-long fan of Dolly Parton's music, business endeavors, rhinestone wardrobe, and who she is as a person. She worked at Dolly's theme park Dollywood in Pigeon Forge, TN in the show Country Crossroads. One of her fond memories while working at Dolly's theme park was spending time between shows to hear personal stories from Dolly's very own Uncle Bill. Natasha is the most sought after Dolly impersonator for events in Nashville and all over the country for over ten years now. Capturing Dolly's outgoing personality and charm, she is sure to make guests feel like they are watching Dolly herself big hair, big assets and all.

With her show A Tribute to Dolly, she captures her voice and personality by singing her songs such as the classics *9 to 5*, *Jolene*,

Coat of Many Colors, *I Will Always Love You* and many more. The show incorporates 90 minutes of songs written and made famous by Dolly Parton. Throughout *A Tribute to Dolly*, you will hear stories behind the songs as well as stories behind the life of Dolly and growing up in the Smoky Mountains of East Tennessee in a family of 12 children. These stories and the music, which features the mountain sounds with fiddle and banjo, are bound to take you back in time to a more simple life. The songs themselves tell the stories.

Portraying Dolly over the years, Natasha has performed on the Ryman Auditorium stage, performed as Dolly for Naomi Judd, sang Happy Birthday for Dolly's 100 year old neighbor, and performed a concert of Dolly songs at Reba McEntire's home The Estate at Cherokee Dock. The Grand Ole Opry hired Natasha to be a part of Dolly's birthday celebration show since the real Dolly couldn't be in attendance. Recently Natasha had the opportunity to meet Dolly in the recording studio. Upon wrapping up their meeting, Dolly gave her stamp of approval by telling Natasha, "Good luck with your career whether it's being YOU or being ME!" This is a show you don't want to miss!
